Professional Summary

Skilled in developing strong internal and external relationships to facilitate the collaborative achievement of organisational goals. Confident in ability to operate effectively in a fast-paced environment and leverage skills in HTML, CSS, JavaScript and ReactJS to enable team success. Committed in lifelong learning and going the extra mile to facilitate continuous improvement.

Key Skills

- HTML 5
- CSS 3
- JavaScript
- ReactJS

Education

Bachelor of Science in Computer Science & Mobile and Web Application Development,
Murdoch University

- Relevant units: Web and Mobile Computing, Advanced Web Computing
- MuWorld Project: Lead front end engineer in a team that is tasked to develop a system in which users can log into and enter, edit and delete data. Used google maps API to display a heatmap of location logged in the system.

Additional Information

- Native English
- Basic Japanese (N4 Level)
- Visually Impaired (Partially Blind)

I can still see, unable to see fine details and normal sized words. I can see them with the use of assistive technology available on smartphones and laptops. Employers do not need to provide them since I use my phone and all laptops have them built-in. Lastly, I have no problem moving around on my own.
